

Vote of NO CONFIDENCE

I register my vote of NO CONFIDENCE in Senator Lamar Alexander in response to his votes during the past seven years, culminating in his recent yea votes for

S-CHIP

TARP - Emergency Economic Stability Act of 2008

Omnibus Spending Bill

Give Act/Serve America

Eric Holder Confirmation

David Ogden Confirmation

The Senator's campaign promises to vote conservatively are all too often at odds with an actual voting record that authorizes increased federal spending and expansion of massive social programs that are totally out of line with the United States Constitution.

As a resident of Tennessee, I strongly urge the Senator to carefully reconsider the rights of tax paying individuals in a free society to determine our own circumstances rather than having the government do it for us.
